The Grrrl Racers' Anzac Day Action

Round 2 of the Girls Ride Out (GRO) Ladies Racing Series was held on Tuesday 25th April 2006 at Eastern Creek, in conjunction with The Honda ASC Road Race Series.

Most of the girls managed to achieve personal best lap times at this round. However the day wasn't without its dramas. The girls got out early in qualifying and started dicing with the Lightweights and Clubsport Lites. Maree Rutherford's VFR400 was hit by Frank Tanti and came off much the worse for wear on turn 11. Maree is sporting a couple of broken ribs, a banged up elbow and a big damage bill.

Race 1 saw Kellie Buckley's VFR400 not wanting to play the game so she was unable to complete any of the day's races. Rosie Gray did well in race 1 and had also entered the 400cc race only to have a major problem with her VFR 400, putting her out for the rest of the day as well.

In race 3 there was some exciting racing, with places changing numerous times. Turn 9 become the corner of action when Julie Birkett's R6 & Amy O'Mara's GSXR750 kissed with Amy not completing the corner, putting her out for the race. Julie went on to win her 3rd race for the day.

Charlotte Snowden gets a special mention - she hadn't been on her DUC996 since last October and she also managed to fit in a couple of breast-feedings between races. In 2 short months Charlotte is demonstrating the true art of motherhood!
